

Dear Sir or Ma'am,

I oppose relaxing ownership limits in a broadcast marketplace. It seems to me the evidence is clear that unlike in other industries, deregulation means less competition and more conglomeration. In my area near the IL / WI border a majority of the stations are group owned with very few remaining independent voices left. Simply put, we the listeners don't need this. We don't benefit from this. And in this area LPFM has resulted no usable channels for allocation so that didn't even help. Please leave things as they are, or even consider reversing some of the moves of the past. There is already too much consolodation in the broadcast marketplace right now.
